The Lady and the Star 10,000 Billion Years But This is Britain Henry Ford's Ignorance

Current Events By Arthur Brisbane

THE front page two sets of headlines face you, and help you to judge your day. One headline deals with La Paris. They want their skin tanned. Rouge and lipstick are out of fashion. But we live in a hurry. Sunshine is uncertain, real tanning takes too long. So the ladies bathe twice a day in strong tea, and soon they are tanned thoroughly, all over. The tea tan, caused perhaps by tannin in the tea, is more uniform than sun tan. And it gives the "barbarous color" that the ladies desire.

THE OTHER news comes from Professor Russell, head of the astronomy department of Princeton University. He tells you that a star, one of the tiny light specks in the Milky Way, or great Vega, the blue star above our heads, or our own sun, has a life covering more than TEN THOUSAND BILLION YEARS.

Not ten thousand million years, mind you, but ten thousand billion. LET THAT appalling figure sink into your mind. It is utterly useless to try, by any method, to make a finite human mind understand such figures. You write down one, and thirteen zeros and that stands for ten thousand billions. But that means nothing to us, except a certain sound of words.

Yet the faintest star do roll on through ten thousand billions of years. And then they go back, by cataclysmic collision or other way, to disorganized matter, and begin all over again, just as we do.

THAT'S THE one grain of comfort. The life we know is but three scores and ten, or a little longer. If we escape the germs. We appear and disappear, like grains in the sand, but we are at least part of a scheme in which some things do last ten thousand billion years. And, for all we know, we may have a total existence as long as time itself. And so may the goat, for that matter.

IF THE French lady in her tea bath interests you more than the star that lives 10,000,000,000 years, you are one kind of human being. If the age of the stars interests you more than the color of a lady's cuticle, you're another sort of human.

King Lear, in his sorrow, called upon the stars to pity him. They have been surprised to know the real difference in their ages.

THE EGYPTIANS have learned that shooting British officials is expensive business. They had the fun of shooting and killing General Sir Lee Stack. Now they will pay for their sport.

With Grafton sends this ultimatum: "Pay two and a half million dollars for killing Stack, and get out of the Sinai, which is valuable, and belongs to us, anyhow, and apologize. If not."

POLICE MAN BEATEN, DYING

Di Napoli of Station 6 Is Attacked by 3 Men While He Was Arresting Another

Set upon and beaten by three men while he was attempting to arrest a fourth man, Patrolman Salvatore DiNapoli of Station 6, South Boston, was so severely injured that he is not expected to live. He is on the danger list at Carney Hospital, where he was taken after the attack, with a fractured skull, broken ribs and internal injuries.

One man, Thomas J. Curran, Jr., of No. 470 East Third street, South Boston, was arrested. He was identified at the hospital by DiNapoli as one of his assailants. The policeman, who is 38 years old and lives at No. 176 Walnut street, Neponset, was trying to arrest a man known only as "Powers" for a minor offense, early today. They were on the summer street extension near East First street, headed for the police station, when three men darted out of the shadows and came up behind DiNapoli and his charge.

They knocked the policeman down, beat him severely and then took his club and revolver and ran away. After a time DiNapoli struggled to his feet and made his way to a patrol box where he telephoned the station. A squad was at once sent to the district and their search resulted in the arrest of Curran, DiNapoli, meanwhile, was taken to the hospital.

A short time later Lawrence Powers, of No. 519 East Third street, South Boston, was arrested. Both Powers and Curran were charged with assault and battery.

Attorney Sharron, who was with DiNapoli when he was beaten, described the prisoners as "the smoothest and most dangerous confidence men in the United States." He told Chicago about a year ago they said, with \$2,000,000 in cash. He said he has since made his home in "Pinehurst," a spacious residence near Liverpool, N. B.

"BOBBED" PREACHER TO CLEAN UP HUB

MARGUERITE V. PONCK
Twenty-one-year-old Evangelist has returned from a tour of Maine with the announced intention of working in Boston. She is a Somerville girl. (Photo by International Newsrel)

Miss Marguerite V. Ponck of West Somerville, Boston's only bobbed-haired minister, is back home. Fresh from a season as minister of two Methodist churches in Maine, and ready to be energetic war on vice and evil in the city.

Miss Ponck is only twenty-one years old, but she holds decided views on the manner in which the present day pulpit should be run. "The trouble with women preachers is that they develop with no trouble at all into cheap imitations of Billy Sunday," she declared on her arrival here.

"The average member of my sex who starts to preach the gospel, puts a little tremolo into her voice and gets folks to come and hear her by the urge of emotionality."

BIG LOSS LEITER'S BOBBED AGAIN

Rising Rivers Cause Heavy Damage; Big Railroad Washed Out Near Berlin, N. H.

Heavy property damage from torrential rains, swollen rivers and gales was reported today from every New England State. Rivers were rising everywhere, snow was falling in the northern districts and winds were raising havoc with telephone and telegraph lines and other property.

Families were driven from their homes when cellars were flooded by waters overflowing from creeks and rivers, and walls of buildings were undermined and weakened.

Such dense fogs hung over Worcester today that even at noon the city was almost in darkness. Stores and manufacturing plants had to leave their lights burning all day. The Worcester school department dismissed the classes in all the public schools that are not equipped with electric lights.

RAILROADS HIT.
Railroads reported hundreds of dollars damage and delays in service on many lines as a result of the worst washouts in several years. Near Berlin, N. H., 600 feet of track were carried away in the overflow of the Androscoggin River.

Two barges were sunk in the harbor at Belfast, Me., where they were lost from their moorings in the gale. Other shipping on the Maine coast suffered hardships and in the cities window glass was blown out and roofs torn away.

A freight wreck occurred at Smith's Mills, above Seaboard Lake, Me., when a train ploughed into a building which had been blown across the tracks. No one was injured, and a section of track was torn up and traffic halted.

More than 250 telephones were cut out of order in Lewiston, Me., and Montpelier, Vt., were without both for hours.

The Mohawk River in northern New Hampshire, swollen over its banks, cut through the Boston road, and a section of the highway 110 feet from the former bed.

NEVER HAD DEAL WITH PROMOTER

Knightly, Who Launched \$75,000 Scheme, Unable to Pay Last Week's Horse Rent

Additional revelations concerning the execution of Charles V. Knightly, whose plans for the industrial expansion of Lynn were swallowed by business men of that city, came today.

Edward Ford, said to be behind Knightly's project, denied any knowledge of the man. It was also learned the Standard Engineering Company, which he claimed to represent, forfeited its charter in 1923.

Knightly's proposition, which had the support of Mayor Harkin A. McDevine, involved the expenditure of some \$750,000 in draining marshes and erecting massive and homes "bordering with desirable Lynn harbor."

The Lynn City Council allowed three conferences in the matter a week ago by voting a \$150,000 bond under which the sewer system so that the outfall would be three miles at sea, instead of on the marsh.

FORD NOT IN DEAL.
Today Edward Ford denied to a representative of the Boston American that he had ever heard of Knightly or the Standard Engineering Company. He said he had never had any association with this man and the use of his name by Knightly was unauthorised.

At the same time it was learned that the Standard Engineering Company, organized in December in October of 1918, with initial stock of \$100,000, had been liquidated.

HIT DOG MAN BOYS REAURAT WHEN POLICE 'HOUND' HIM

WON'T HAVE DO MORE ON NOW

Aged, Poorly Dressed Pedlar
Struggling Along With
\$12,000 Bankroll

An aged, poorly dressed man, who peddled hot frankfurters on the streets of Boston, was revealed today as sufficiently well-to-do to buy himself a restaurant when his sidewalk sales were stopped by the police.

The "hot dog" man is Edmund Shanley of No. 42 Poplar street, West End. For some time he has sold his wares on the sidewalks of Berkeley street.

He used to spread them out, one evening in the police, and clutter up the sidewalk for a couple of hours at a time during the noon hour. He was warned several times by sergeant McNally of the East End station. Finally McNally arrested him.

When he was searched at the station house he was found to have \$100 in his pocket.

He declared he had just sold a house for \$12,000 and that was part of the money.

He was fined \$10 in court and then was sent to the house where he bought a small place which he is planning to use as a restaurant where he will sell his "hot dogs" unmolested.

At his Poplar street home he lives alone in a dark little room. Shanley there professes to know little or nothing about his morning and evening back late at night with his "hot dog" stuff.

ACCOUNTANTS WILL

An invitation, G. H. Fitch, president of the Massachusetts state organization, was made to the Parker House.

'FEEDS' GLANDS AND SAVES
BABE FROM IMBECILITY

New York, Nov. 24 (U.S.A.)—If he thinks of the baby as deficient, feed him, and Dr. Mark Reber says.

He feeds the little "midget" baby of Mrs. and Mrs. Walter Fitch, which was born in Springfield, Mass., with a nervous wreck.

Dr. Reber said that the baby is showing such remarkable improvement that he hopes to save it from a life of imbecility.

The baby has grown from an anemic child of five pounds and three ounces, to a fairly plump youngster of six pounds and fourteen ounces. This increase, Dr. Reber said, is one of the surest proofs of the efficacy of his treatment.

Worcester Police Puzzled by Apparent Suicide Case on B. & A. Line

Worcester, Nov. 24.—The body of a well-dressed man was found hanging from the baggage rack of a side-tracked passenger coach which had been stopped here from a Boston to Springfield train.

Although the man is believed to be a suicide, the police are attempting to clear up puzzling circumstances.

Efforts to establish the man's identity were unsuccessful and his dissection has been sent to Boston and other cities.

The train to which the coach was attached came from Boston and is believed the dead man was a passenger. The body had been hanging from the baggage rack to the rear of the train.

The coach was left on a siding in the Shrewsbury street yards after the train's arrival and was undisturbed until a car cleaner went there.

Police were called in, and a search of the baggage rack revealed the body of a man who was found hanging from the baggage rack to the rear of the train.

The body was taken to the morgue. The man was about fifty years of age, five feet five inches tall, 140 pounds, gray hair, blue eyes, smooth face, light brown mustache, light blue shirt, black striped shirt, blue vest, and dark trousers.

HUNDREDS FLEE RISING FLOOD IN QUEBEC

Canoes, Rowboats and Horses Carry Many Refugees as Bridges Give Way

Quebec, Nov. 24.—Hundreds of families are fleeing from villages in the Charlevoix district, on the north shore of Quebec, seeking to escape a flood which is rising hourly. Canoes and rowboats are the favored means of escape, although hundreds are said to be fleeing along on foot.

Four bridges over the Saguenay river, a small stream emptying into the St. Lawrence, have been swept away and the water has carried away large sections of the rail and underground buildings.

There has been a downpour of rain for hours and there is no relief in sight.

The bridges which were temporary structures, erected to replace four destroyed by floods a month ago.

The villages of St. Paul and St. Eustache, on the northern bank of the St. Lawrence, were reported to have been completely submerged.

Families were seen fleeing their way toward high ground several miles northwest, crossing their flight through the flooded area by the aid of logs.

The rainwater is pouring through the Saguenay river, although no Quebec bridge has been reported from other sections.

It was feared, however, from the activity of experts along scientific lines that there is a report and the report may be subjected to a mild attack.

TRIBUTE TO ACTRESS. In the title role Miss Davies attains her supreme achievement, displaying a charm, a versatility, a functional force and captivating manner of humor that elating her as one of the most distinguished actresses of the screen. Following its coming at the Metropolitan theatre in New York, "Janice Meredith" was hailed as one of the most popular and brilliant photoplays achievements of all time. Miss Davies was added to the screen by Little Playwright from the late Paul Listerne Ford's story of the same name. It will be recalled that "Janice Meredith" was one of the most popular stories of the day, and later attained interna-

tioned when dramatized and presented on the screening stage with Mary Manning in the title role.

REMARKABLE CAST.

In the cast supporting Miss Davies are several players who have won stage and screen success as stars in their own right. For instance, there is Holbrook Blinn, one of America's premier actors, who won fame in the play and picture "The Bad Man." Marvin Arbuckle as the father of the heroine is considered by theatregoers for being brought back to his starring role in "The Foundling." Clarence Lane, who plays the leading role opposite Miss Davies, has been starred in many big photoplays successes and has appeared opposite almost every screen star of the screen. Joseph Kilgour was brought on from the Coast army to play the part of General Washington, and Loren Jurgensen another film star, made a similar story of the same name. Joseph Kilgour was brought on from the Coast army to play the part of General Washington, and Loren Jurgensen another film star, made a similar story of the same name.

Others in the large cast, whose names are known to playgoers from coast to coast, include: Thorne Power, as General Lord Cornwallis; George Nash, as Lord Howe; Eben Carter, as British General; Otis Howard, who plays one of the leading country boys; W. C. Fields, star of "Puppy"; Douglas Stevenson, featured in many musical comedy successes; Max Voles, who appeared in the original cast of "The Last Days of Pompeii"; and the Ziegfeld Follies.

ARMY AND NAVY.

All told more than 5,000 persons appear in "Janice Meredith," including the Twenty-sixth Infantry, U. S. A., and navy from Port of Spain, who took part in such scenes as Washington crossing the Delaware, Valley Forge and the Battle of Trenton.

"Janice Meredith" is the most astounding production ever attempted by the Metropolitan Corporation, exceeding in scope, in dramatic interest, in magnitude in securing beauty, in gorgeousness of settings and scenery, in the power and greatness of the characters, anything previously accomplished by American picture.

The picture was directed by E. Mason Hepner and embellished with a wealth of settings designed and executed by Joseph Urban.

"REM stopped my cough in a jiffy!"

That's the way Mrs. Thomas C. Reeves of 40 Mills St., Boston, tells another new variation of a familiar story. She had had a cough for weeks—a real bad one that seemed unending.

But REM ended it and ended it quick! We know it did because here's Mrs. Reeves' word for it:

"For several weeks this winter I had a real bad cough. It hurt me through and through when I coughed, and was so bad at night that several nights I hardly got a wink of sleep.

"Then I happened to see a recommendation in the paper about REM. I figured if it had helped some one else's cough so much, maybe it would do as much for me, so I got my husband to get me a bottle of it from Newman's Drug Store at Ferry and Belmont Sts.

"It stopped my cough in a jiffy. It really surprised me how quickly I got relief. And it did it for my husband, too, when he had a cough later and took REM."

REM's quick action in so many cases is largely due to a special ingredient—effective, harmless—not found in ordinary cough syrups. Clinging to your throat as it is swallowed, REM quickly begins its work of quieting your cough.

No Opates in REM. And it's pleasant to take.

Ask your Druggist for REM—the blue package with the round orange label. You can have your money back if you want it—but you won't!

Introductory size bottle, only 60c
Economy size, \$1.00
